

# Tennessee Pharmacy Recovery Network (TPRN) Regional Meetings

## Overview

The Tennessee Pharmacy Recovery Network has seven regional meetings across Tennessee facilitated by TPRN Advocacy Committee Members. These meetings are accountability groups provided at no cost to TPRN program participants. In these meetings, direct support and feedback are given to assist in the individual's recovery program. They are also open to all pharmacy professionals who believe they may need help with a substance use disorder. (see resources page for self-assessment tools.)
